Kasumi Maeda
Business and Human Rights
Resource Centre

Cc: Enriko Horvath

Dear Ms Maeda

Thank you for your email of the 28th September, addressed to Nili Safavi and Nick Allen, inviting BP to publicly share its response to a petition before the Commission of Human Rights of the Philippines. I am responding in my capacity as Vice-President with responsibility for long-term planning and policy. The text below in inverted commas is our response.

"We are not in a position to comment on an ongoing investigation, but BP's position on climate change is long-standing and well-known. It can be found, along with information on our approach to human rights, in our most recent Sustainability Report which was published earlier this year. The Report is available on bp.com."

Kind regards,

A handwritten signature in blue ink, appearing to read 'Dominic Emery'.
